

BHUVANESHWARAN K

Full Stack Java Developer

+ 91 8608650268

kumarbhuvan89@gmail.com

Chennai - 600097

SUMMARY

Analytical and solutions focused individual with 6 years of experience and a history of delivering high-performing software solutions. confident communicator with exceptional technical expertise.

SKILLS & TOOLS

- Java 8 / 17
- Javascript
- Springboot
- Kafka / AWS MSK
- Cassandra / AWS Keyspace
- MongoDB / AWS DocumentDB
- AWS EC2
- ForgeRock
- S3 Bucket
- Kubernetes
- Docker
- Swagger
- GraphQL
- PL/SQL
- Angular - Intermediate
- Python - Intermediate
- Splunk, Datadog
- GIT, Gitlab, Jenkins, Bitbucket, Source Tree, Jira

EDUCATION

Bachelor of Engineering : Electrical and Electronics Engineering, 2019
S A Engineering College (Anna University) - Chennai

AREA OF INTEREST

- Artificial Intelligence and Data Analytics
- Web Application Development

EXPERIENCE

Full Stack Java Developer (Cloud), 02/2022 - Current

Senior Software Analyst, Accenture - Chennai, India

- Contributed to all phases of the development lifecycle, from design to writing and development.
- Developed a cutting-edge application from inception to completion using **Java and Springboot**, meeting project requirements and surpassing performance expectations.
- Implemented scalable, secure, and cost-effective **cloud architectures**, optimizing performance and ensuring compliance across both **AWS and Google Cloud** environments.
- Adopted best practices such as writing clean and reusable code using **TDD**, pair programming, and **design patterns**.
- Leveraged **AWS Kafka** streams to design and implement scalable, fault-tolerant messaging solutions, contributing to improved system reliability and performance.
- Engineered robust and scalable database solutions using **AWS Keyspaces** and **AWS Document DB**, ensuring efficient data storage and retrieval.
- Worked on **API First** driven design solution using **swagger** and integration with front-end by **GraphQL**.
- Designed and implemented custom authentication journeys using **ForgeRock Identity Platform (AM)**.
- Configured and maintained **ForgeRock Access Management** components.
- Spearheaded and managed a cross-functional team of 10 professionals, overseeing the entire project lifecycle from **initial architecture design to successful product delivery**.
- Continuous Integration/Continuous Deployment (CI/CD) pipeline experience with **Kubernetes and Docker**.
- Employed versioning tools like **GIT** and technologies to control, monitor and log changes to application code like **SPLUNK, Datadog**.

Java Developer, 08/2019 - 02/2022

System Engineer, Tata Consultancy Services - Chennai, India

- Designed, developed and tested Java-based solutions using common standards and frameworks for ease of maintenance.
- Wrote well-designed, efficient and reliable code, completing within deadlines.
- Developed and provided documentation to assist non-technical users.
- Charted data flows, processes and storage and defined database schemas representing and supporting different business functions.

CERTIFICATIONS

- Google Certified – Associate Cloud Engineer
- Microsoft Certified – Azure Fundamentals (AZ- 900)
- SI Associate Certification – MongoDB
- Databricks Accredited Generative AI Fundamentals
- IBM – Generative AI for Executives and Business Leaders
